 **Herman Miller**
Eames® Storage Units

Designed by Charles and Ray Eames in 1952, the Eames® Storage Units established a whole new design aesthetic, one that pushed the vernacular of new materials and manufacturing processes. The cabinet fronts are dimpled plywood; drawer fronts, shelves and unit tops are plywood birch; case side and back panels are painted hardboard in coloured (W9) or natural (NC); foot glides are nylon; and uprights, cross-supports, and perforated panels are zinc-coated steel. The units are available in a variety of configurations.
