

.04

Maarten Van Severen, 2000

.04

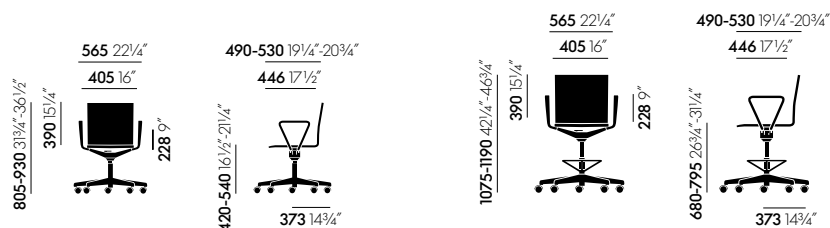

.04 Counter

Maarten Van Severen's .04 office chair is distinctly different in appearance from typical task chairs used in institutional settings. At the same time, it offers advantageous ergonomic features: the flexible polyurethane shell of the .04 office chair has a comfortable sitting surface and pleasantly pliant back. Its rocking

mechanism provides a smooth transition from the working to the resting position and allows moderate lateral movement. With its unobtrusive design, the .04 task chair is ideally suited to the home office.

- **Backrest and seat:** flexible backrest with integrated leaf springs. Polyurethane integral foam seat shell with upholstered effect, self-supporting on a steel frame.
- **Armrests:** with or without armrests in integral foam, basic dark.
- **Micro-mechanism:** rubber ball joint allows multi-directional movement. Height-adjustable.
- **Base:** five-star base and die-cast aluminium bridge, powder-coated (silver RAL 9006).
