

Cri Cri, outdoor

by Studio Natural

FOSCARINI

DESCRIPTION

A day trip to the country. Chirping cicadas. A picnic – a chequered tablecloth on the grass. This is the festive, relaxed atmosphere summoned up by Cri Cri: a wireless lamp with an internal rechargeable battery, to hang up or set down anywhere – outdoors or indoors. On its own or in combinations, open fully or adjusted halfway, Cri Cri gives you the freedom to create always different lighting scenarios: the intelligent LED board allows regulation of light intensity on three levels with a simple touch”.

STUDIO NATURAL

Due figure professionali con esperienze che spaziano dal progetto di allestimento, al product design passando per la comunicazione grafica e il web.

Ambiti diversi legati da un'unica matrice: progettare è l'applicazione di un processo creativo. La lampada Cri Cri è il primo progetto sviluppato con Foscarini.
