#### WILMOTTE & INDUSTRIES

---

Pioneering the concept of "Urban Interior Architecture," Jean-Michel Wilmotte infuses practical application throughout his designs in which public space is treated with the same considerations as private space.

Born in France in 1948, Wilmotte's firm has been in practice since 1975. Throughout a varied career encompassing architecture and object design, he is as well-known for adaptive re-use of older buildings within an urban planning context as he is for museum exhibitions and high-end boutiques.

## MODERN

---

Available in black or grey anodized finish, Fiamma creates a harmonious balance between ambient function and contemporary form, giving a modern feel that complements any interior.

## VERSATILITY

---

The Fiamma collection offers a wide range of table, floor, wall, ceiling and suspension models. These models can be combined to create design consistency throughout a space, whether residential or commercial.
