

# CEFISO

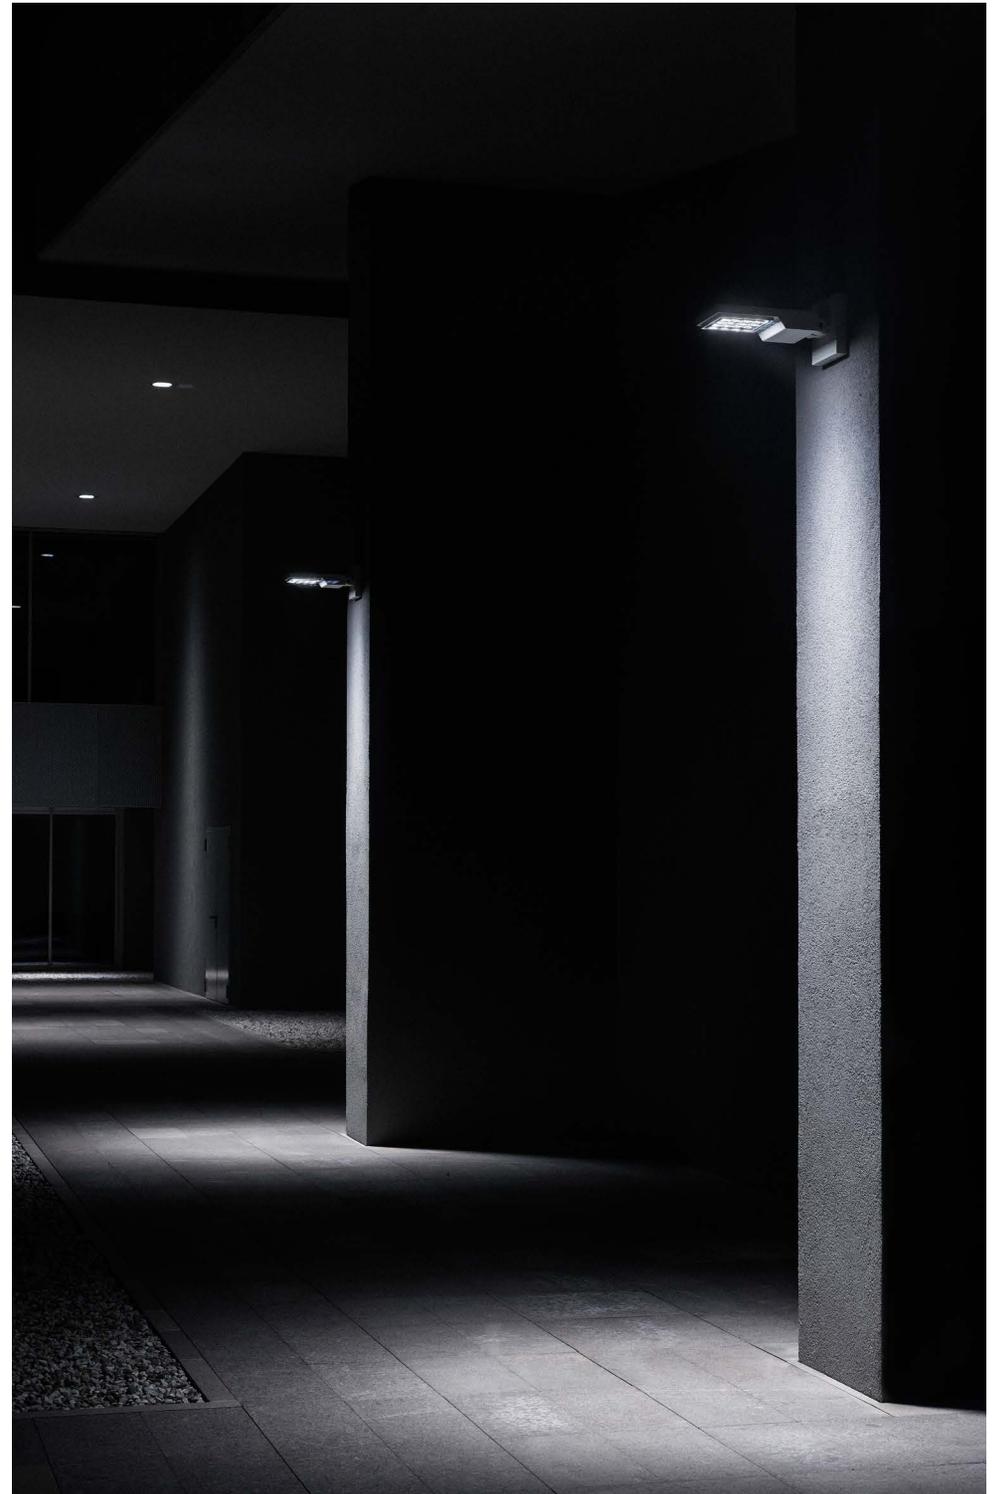

BY  
ALESSANDRO PEDRETTI

ALESSANDRO PEDRETTI

A Milanese architect, designer and museum exhibition consultant, Pedretti has worked with Studio Rota since 1998. Equally interested in art, fashion and cinema he designed a "Star Wars" themed exhibit for Milan's Triennale in 2005.

## MODERN

---

Cefiso uses light as an architectural expression, enclosing technological performance and light architecture in favor of a personal interpretation of individual space. Cefiso can light up any modern space.

## TECHNOLOGY

Cefiso features adjustable direct emission from high-performance LEDs that gracefully highlight details or adorn large areas with an inviting sense of warmth. The lens is available in three different beams: spot, flood and wall wash.

## FUNCTIONALITY

Available in two sizes with grey white or grey anthracite finishes, the Cefiso outdoor light can be used as a wall, ceiling, or floor light. Composed of an aluminum body and terminal board, Cefiso is adjustable, featuring a base that rotates up to 180° and body tilting up to 90° which can be locked by dowels. Cefiso is easily installed, having its electronic driver integrated into the body.

# CEFISO wall | ceiling | floor

## CEFISO 14 wall | ceiling | floor

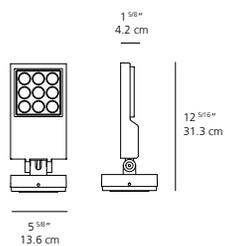

**EMISSION**  
adjustable direct

**LIGHT SOURCE**  
LED
