

# DIOSCURI

BY  
MICHELE DE LUCCHI

**MICHELE DE LUCCHI**

---

Born in Italy in 1961, Michele De Lucchi designed the Tolomeo in 1987. The lamp now available in sizes from mini to mega is arguably Artemide's most iconic fixture.

Having a background in architecture and industrial design, De Lucchi also favors a craftsman-like approach and since 1990 through the line "Produzione Privata," he has created a series of artisan-produced items such as small sculptures carved with a power saw.

## TIMELESS

Dioscuri is a timeless fixture that diffuses heavenly light. This multi-purpose luminaire features a minimalistic design that transcends time with its charm.

## HANDBLOWN

The multi-purpose luminaire features a minimalistic design composed of hand-blown acid-etched white glass supported by a hidden thermoplastic resin base that allows light to disperse beyond the round shape.

## VERSATILITY

---

Dioscuri is versatile in its flexibility of arrangement by clusters and playful bundles of light. Dioscuri can be creatively configured in various permutations, making it unique to each interior design. It serves multiple uses in residential, hospitality, or other contracted spaces.

## UBIQUITY

---

Dioscuri is not restricted to the conventional wall mounting, ceiling or fixed pedestal format. Dioscuri's ability to stand alone or be configured in various clustering patterns makes this fixture the ace of permutation and combination in lighting.
