ARIK LEVY

A multi-disciplinary Israeli artist and designer, Arik Levy's Stab Light for Danese won a 2016 Red Dot design award. Based in Paris, Levy's multimedia art work is represented by galleries worldwide.

## DESIGN

---

The design was inspired by the image of a sprouting plant. The fixture's unique angular structure fits seamlessly into any outdoor environment. Oblique's design conveys 2 dimensions that make the piece seem to disappear from certain angles and blend into its surroundings.

## PERFORMANCE

---

Oblique's slightly downward angle projects LED light through a high-performance reflector that prevents glare and defines and enhances outdoor spaces.
