

Fork XL, suspension design Diesel Creative Team

The Fork lampshade is inspired by casual fashion and by an informal, playful and dynamic lifestyle. Creating the same effect as turning on a light inside a camping tent, the light inside the diffuser highlights its patchwork structure as well as its fabric and visible, jeans-like stitching. The concept of Fork takes a range of forms in a complete family of lamps for every environment and time of day. Hanging XL Fork has a fixed diffuser with a large diameter which fits easily into any setting. Its satin effect polymethylmethacrylate screen filters a diffused, anti-glare light downwards. The diffuser is ivory or grey in linen treated using a process which gives it a vintage look.

Fork XL, suspension technical info

Description

Suspension lamp with diffused and direct/indirect light. The opaline PVC polycarbonate diffuser is covered with pure linen fabric, with a purposely uneven weft and warp of the fabric achieved by hand. The fabric is first dyed and then undergoes anti-fray treatment; it is then cut into pieces and tailored by hand using a sewing machine with visible seams. Brass eyelets with galvanised finish in gun barrel colour. The frame is made of white powder-coated steel. The lower diffuser, which screens the light bulbs, is made of PMMA with satin finish. Transparent electrical cable. Ceiling flange with galvanized metal bracket and white batch-dyed ABS cover.

Materials: Dyed linen, satin PMMA and varnished steel.

Colours: gray, ivory

Brightness
diffused light

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
