

Gask, wall design Diesel Creative Team

It looks like something straight out of a 1920s convenience store or from a warehouse of work tools, but it also recalls the ziggurats, the sacred terraced step pyramids built in ancient Mesopotamia: Gask is a small suspension and wall lamp with a grand personality. The steel mount, with its rough and textured embossed black finish, is joined to the blown glass diffuser with exposed brass bolts, which recall the atmosphere of an old-fashioned hardware store, in a play of contrasting materials, inspirations and sensations. The diffuser is available in two versions, each with its own styling and lighting personality: milk white, for a warmer and more diffused lighting, or transparent grey, that lets you catch a glimpse of the light source inside, a contemporary touch with a high-tech flavour. Gask is a charming combination of memories and contemporary living, perfect in rooms of all sizes, thanks also to the possibility of using it in compositions with Foscariini's multiple canopy.

Gask, wall technical info

Description

Wall lamp with diffused and direct down or up light. Diffuser made of hand-blown triple-layer glass: glossy transparent in the grey version and glossy cased in the white version. The mount is made of black fine powder coated steel with embossed finish, black electrical cable. Exposed brass bolts act as both decoration as well as glass stops.

Materials: blown glass and varnished steel

Colours: white, grey

Brightness

direct down light

Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
